I had total knee surgery and afterward I was very well taken care of, and I was able to quickly walk again. Dr. Moore was very quick to respond to my referral and to my online consultation as well. I found his English to be fluent and helpful. He set me up with Dr. Suhan Ong, an excellent physical therapist, as well. She is hard at work, and I very much admire Dr. Moore for giving me what he could and for referring me to her. A special thank you goes out to Dr. Suhan Ong, who I never would have found on my own. I had surgery, broken arm and cracked ribs. The doctors I met were very caring and professional and the surgery and recovery was painless and easy. They made me feel like I was a special person. They made it about me not their practice. The staff is excellent.
