FoCal Pro from Reikan is purpose designed to provide a comprehensive and accurate way to focus calibrate and test most modern Canon and Nikon DSLR cameras . Feb 21, 2020 Focalscope Pro 11 . Enfocus PowerBounce Pro - free PowerBounce Data from Enfocus. PowerBounce and PowerBounce 2 are combined in PowerBounce Pro in order to give both a wide field of .

Enfocus PowerBounce Pro - free PowerBounce Data from Enfocus. PowerBounce and PowerBounce 2 are combined in PowerBounce Pro in order to give both a wide field of . Reikan FoCal Pro-torrent-fileser FoCal Pro from Reikan is purpose designed to provide a comprehensive and accurate way to focus calibrate and test most modern Canon and Nikon DSLR cameras . Dec 22, 2020 This software will automatically calibrate and test all of the sensors on most modern Canon and Nikon DSLR cameras. Calibration and test results are stored in one or more sets of image files that can be used by other software to sharpen or further process the images. DxO OpticsPro is optimized for the latest releases of Canon and Nikon cameras but calibration is also possible with older models. Several test results are saved in each image file including sharpness, bokeh and resolution. Pulse oximetry for prediction of hypoxemia in anaesthesia. To determine whether the relationship between non-invasive arterial blood oxygen tension and arterial oxygen saturation is predictive of hypoxemia in adult patients undergoing general anaesthesia with controlled ventilation. Prospective observational study. A single anaesthesia practice. 102 patients scheduled for major elective surgery. Anaesthesia was induced with midazolam and fentanyl and maintained with a continuous infusion of sufentanil and isoflurane. A catheter was inserted in the radial or brachial artery. Pulse oximetry was performed on the index finger. The relationship between the transcutaneous oxygen tension and oxygen saturation (SpO₂) was evaluated with the Bland-Altman method. The limit of agreement was 8.3 kPa(-1) (-4.7 to 22.4 kPa(-1)) for SpO₂ 10% 2d92ce491b
