
Fritzing tutorial arduino pdf NEW! Download

11 steps

1. The first step in creating a Fritzing look is to find the parts you want to use. Fritzing comes with a basic parts basket, a "my parts" basket and many other parts.
2. The original parts bin will be empty, but mine is full of Diligent parts created by myself or others at Diligent.
3. If you want to import Diligent parts or other user-created parts, click the drop-down menu on the right side of the panel labeled My Parts and select .
4. When the Import dialog box opens, you will see a list of the parts you want to import.
5. Once you have selected all the parts, click the "Open" button and you will see that the parts have been added to your shopping cart.
6. After adding your first piece to the cart, you can add other pieces from the cart.
7. When you have added all the parts, you can click the "Remove" button above the basket and remove all parts from the basket.
8. After removing all the parts from the basket, you can start building.
