Story highlights Florida is one of 14 states that permits openly carrying firearms He was also arrested in 1999 on charges of aggravated assault He was also accused of injuring police during his arrest A homeless Florida man who has been arrested multiple times was charged Thursday with being a felon in possession of a firearm, according to the Palm Beach County Sheriff's Office. Terry Lee Grimsley, 56, was arrested by deputies with the sheriff's office in West Palm Beach, the Sheriff's Office said. It was unclear whether he had an attorney. Grimsley was arrested Thursday morning at the Neighborhood House on Lake Worth Road. He was allegedly found with a loaded, stolen handgun, the Sheriff's Office said. Grimsley has a lengthy rap sheet, the Sheriff's Office said. He was arrested in July 2010 on multiple charges of aggravated assault, according to court records. He was also accused of injuring police during an arrest in August 1999. According to Palm Beach County court records, he was arrested in August 2004 on charges of two counts of petit theft. More recently, he was arrested in April 2013 on a charge of "domestic violence battery/intimidation." Grimsley has been arrested numerous times on charges of resisting arrest, burglary of an unoccupied dwelling, burglary of an unoccupied vehicle and battery on a law enforcement officer, according to Palm Beach County court records. He was arrested in 2012 on charges of public lewdness and battery on a law enforcement officer, according to court records. He was

### What's New in the B3 Retail Lite?

B3 Retail Lite is a Windows-based point of sale program for retail businesses to sell food, drink, music, goods, services, and more. B3 Retail Lite includes easy to use inventory management tools with built-in data import and export functionality. B3 Retail Lite lets the user easily add, edit, and delete products, customers, and stores while simultaneously keeping track of item movements, inventory, sales, the end of the day, tax, and more. Visit store location using Google Earth and 3D virtual walkthroughs of the store You can watch a store location on your desktop by using the Google Earth function in B3 Retail Lite. You can also examine the location of any store using the Google Earth & 3D mode. With the help of this feature, you can prepare the layout of your store, place products, and move items from the computer screen. Show product images on the screen You can quickly see the product images when you enter the item into the screen. Keep track of cash, inventory, and sales using the built-in reports You can easily view the activity history using the built-in reports. These reports can be viewed in several ways, including alphabetically or by date. Powerful built-in search function You can easily search for and sort items by attributes such as name, description, price, quantity, tax, and others. You can use the built-in search function to find all your items even when they are sorted by other attributes. Import items from various sites You can easily import items from Amazon, eBay, Google Shopping, and many more sites. Many built-in report options for performing various types of analysis You can easily and quickly perform various types of reports on the items, customers, and stores. Split item types into multiple parts and adjust quantities You can easily split a single item into multiple parts for multiple sales. Access to bulk customer edit If you need to update customer information, you can easily access and edit the customers and items at one time. Manage and create custom items You can easily create new items and items with custom attributes. You can also adjust the attributes of existing items. Efficient barcode scanner and inventory management You can easily scan the item barcode using the built-in barcode reader. When scanning the barcode, the item name, description, price, quantity, tax, weight, and others are automatically filled in. You can easily keep track of item movements and invoices by adjusting the items automatically. View and adjust the end of the day and supply reports You can view and adjust the end of the day and supply reports. View and adjust the tax report You can easily view and adjust the tax report.
