The pdf of the product catalog are all saved in %USERPROFILE%\toyota\toyota electronic parts catalog.Q: jquery update div based on array index I have the following HTML: This is a Header This is a Content I want to update the.content div based on the number of li's in the.header div. In other words, if I have 3 li's in the.header, I want to update the.content div to say: This is a Content. I'm trying to do this by creating an array and then using.each() to make a few changes, but can't figure out how to get the index of the array. var index = \$(' .header li').length; var array = []; var content = \$(' .content').html(); \$.each(array, function(i, value) { content = content
