- All of these options are well documented in the help file, but there is a couple of other thing you might want to know. If you have multiple projects saved in the same folder, the application does not. It can usually been very annoying to watch the movie and realize that you have to start all over again from the beginning. . . . The application should run without a problem on just about any Windows operating system. The software takes almost no time to get up and running and is very easy to use. The program includes a full suite of features and provides a very attractive interface. The interface does allow for a little bit of customization but is actually pretty simple. Most apps offer a few different views that the user can switch between, but the. The manual, a little help, is very well done and has everything that you might need, complete with screenshots and illustrations. It does contain a small amount of information regarding the video that will be displayed but it is well written and easy to follow. The documentation also includes a DVD ripper that can be used to rip a disc from a DVD to the computer. This is a really useful feature and. I was able to rip my desired videos to my computer for quick access. The program also comes with a PDF editor and document viewer. You may also want to take a look at the trial version, just to see how easy it is to use.
